

IDWeek 2020

October 21-25, 2020
Virtual Conference

Presentation: SARS-CoV-2 Preparedness among Community Hospitals in Southeastern United States

Name of Presenter: Sonali Advani

Presentation Type: Poster

Presentation Session: COVID-19 Infection prevention

Presentation: #BeASteward: Transforming Infectious Diseases Fellows Into Antimicrobial Stewards Using the IDSA Antimicrobial Stewardship Curriculum

Name of Presenter: Sonali Advani

Presentation Type: Poster

Presentation Session: Infectious Diseases Medical Education

Presentation: Use of Statistical Process Control Charts for Early Detection of Healthcare Facility-Associated Nontuberculous Mycobacterial Outbreaks

Name of Presenter: Arthur Baker

Presentation Type: Poster

Presentation Session: HAI Outbreaks

Presentation: Development and Assessment of a Process to Describe the Timing of Antibiotic Changes in Adult Inpatients

Name of Presenter: Spencer Livengood

Presentation Type: Poster

Presentation Session: Antimicrobial Stewardship: Outcomes Assessment (clinical and economic)

Presentation: Correlation of International Classification of Diseases (ICD) codes to initial provider-selected antibiotic indications in hospitalized adult patients within the Duke Antimicrobial Stewardship Outreach Network (DASON)

Name of Presenter: Spencer Livengood

Presentation Type: Poster

Presentation Session: Clinical Practice Issues

Presentation: Pseudo-outbreak of Adenovirus in Bronchoscopy Suite

Name of Presenter: Jessica Seidelman

Presentation Type: Poster

Presentation Session: HAI Outbreaks

Presentation: SSI Trends in Community Hospitals from 2013 to 2018

Name of Presenter: Jessica Seidelman

Presentation Type: Poster

Presentation Session: Surgical Site Infections

Presentation: Surgical Site Infections Following Colon Surgery in a Large Network of Community Hospitals

Name of Presenter: Jessica Seidelman

Presentation Type: Poster

Presentation Session: HAI: Surgical Site Infections

Presentation: Opportunities for Antimicrobial Stewardship in Febrile Neutropenia

Name of Presenter: Christopher Shoff

Presentation Type: Poster

Presentation Session: Antibiotic Stewardship: Special Populations

Presentation: Antimicrobial Stewardship for Urinary Tract Infection in Three Emergency Departments Across a Health System

Name of Presenter: Christopher Shoff

Presentation Type: Poster

Presentation Session: Antimicrobial Stewardship outcomes assessment (clinical and economic)

Presentation: Pediatric Antibiotic Use in the North Carolina Medicaid Population

Name of Presenter: Mike Smith

Presentation Type: Poster

Presentation Session: Pediatric antimicrobial stewardship (inpatient/outpatient pediatric focused)

Presentation: Characterization of Isavuconazole Serum Concentrations with Various Administration Routes in a Hospitalized Cohort

Name of Presenter: Justin Spivey

Presentation Type: Poster

Presentation Session: PK/PD studies

Presentation: Mini Root Cause Analysis Reveals Opportunities for Reducing *Clostridioides difficile* Infection Rates

Name of Presenter: Nicholas Turner

Presentation Type: Poster

Presentation Session: HAI: *C. difficile*

Presentation: *Clostridioides difficile* environmental contamination in hospitalized patients with diarrhea: a pilot study

Name of Presenter: Bobby Warren

Presentation Type: Poster

Presentation Session: HAI: *C. difficile*

Presentation: Effect of Easing Overnight Restrictions on Antimicrobial Starts

Name of Presenter: Michael Yarrington

Presentation Type: Poster

Presentation Session: Antimicrobial Stewardship: Trends in Antimicrobial Prescribing

Presentation: Measuring Empiric Antibiotic Spectrum Patterns Across Space and Time

Name of Presenter: Michael Yarrington

Presentation Type: Oral Presentation

Presentation Session: SHEA Decennial Top Oral Abstract Awards
